Authorized by: _____

Date: _____

Customer Information Natural Gas Service

Customer Check List

- **Area Location** - Stake or mark spot where you want the gas service to enter the building. It should be clearly marked "Gas Service". This location must be approved by the City Gas Department.
- **Meter Installation** - After the gas service has been installed to your building the utilities contractor/installer has completed installation of your piping in the building, **contact our business office at 218-834-8812** to request that a meter be installed on the service. The City will hang a meter and regulator, but the gas will remain off.
- **Service Connection** – After your contractor/installer has put on the air test (it must be on 12 hours prior to our inspection), **contact the City of Two Harbors office at 218-834-8812** to request a "Gas Inspection". **The installer must be present.** Upon passing the air test, the inspector will unlock your valve (at this point, monthly service charges as well as any consumption will start to be billed to your account).
- **Customer Owned Service Lines** – Received a Copy of Customer Owned Fuel Piping /Lines information.

All natural gas installations and hookups shall be charged actual cost of labor and materials for service line and main installations.
