

2018 Street and Alley Improvement Project

Construction Notice

June 25, 2018

Temporary Water Service Interruption on Friday, June 29:

It is anticipated that the Contractor will begin connecting the individual house water services to the temporary water system starting on Friday, June 29th. **All residents in the 600 block along 9th Avenue are asked to shut off interior water valves located by your water meter by 9 a.m. on Friday, June 29th.** This is necessary to avoid back-feed into the water system. Residents will be notified when their water is transferred to the temporary system and ready for use again.

Questions should be directed to the City's on-site project representative, Garey Pankonin, at 763-355-4380.
